Manifesto

WHY ARE WE STANDING?

We are standing because we believe that we can represent all the students of Dudley sixth form and help their voices to be heard. We believe it is essential that everyone has a good time during college because it is a crucial period where people are transitioning from school to university and we believe it is important to help the transition be as smooth as possible for all students.

WHAT WOULD WE LIKE TO IMPROVE?

We would like to help Dudley sixth form be more joyful rather than uncomfortable and stressful. In both first and second year, students are stressed out with exam after exam and it's all work but no fun. We want to change that by bringing a good balance of hard work and euphoria for all students.

OUR MANIFESTO PLEDGES

More clubs

-We will encourage teachers to hold revision sessions for struggling students who need the support.

- We will also run fun clubs to help sixth form feel more enjoyable rather than stressful.

More events

-We will plan a Dudley sixth prom if enough students are willing to go.

-We will advocate for a sixth form party after A levels to make results day feel like more of a celebration.

Make sixth form more accessible

-We will advocate for more Ai use because we believe Ai can be crucial to studying and revising.

-We will present your ideas to the management team and help the students have a say in big decisions.

HOW WILL WE MAKE IT HAPPEN

We will work with the student union team and the sixth form management team to plan events and other stuff that we are able to do. We will listen to your ideas and produce them to the management team and help everything work out.
