Why am I Standing?

I am standing to help students feel that their college experience is right for them. My goal is to help students show their voice and suggest problems that i can do to help or fix. You can email me any problems you might have, and I will be happy to try and help you solve the issues you may have.

What would I like to improve?

The main goal for improvement is to connect all the campuses together as the CAT Centre is a very localised campus and lacks connection with the other campuses, especially the Broadway campus which is the main situated campus for Dudley College.

My Manifesto Pledges to You!

1. **College Newspaper Scheme -** I will create a college newspaper scheme for all campuses to connect all of us together. There may be updates in other Capuses that other campuses may not be aware about so students may be missing out.
2. **Student Voice Campaign -** Students deserve to have their voice heard and submit their problems with the college. I will add a box in the busy areas of the campus where students can write their problems on a piece of paper and slip it into the box where myself and other will help to try and find a solution.
3. **Student Enrichment –** I will create a wider range of opportunities for students to participate in activities, events and initiatives that enhance their college experience, encourage involvement, recognise achievements and bring the student community together.

Why should you vote for me?

I am committed to making the college experience feel perfect for every student. If you vote for me, i can promise i will do my best to help solve your problems and consider your suggestions.
