MANIFESTO

Vice President Campaigns

Your Vision · Our Legacy

My mission has always been to build systems, structures and opportunities that last beyond my term, making Dudley College more global, more confident and more united. This mission has guided my work with the Students' Union since last year. As your Vice President of Campaign, I will turn this vision into practical, sustainable action that empowers students, develops future leaders, and creates a lasting legacy.

1. Dudley Youth Summit – Debate. Negotiate. Influence.

I will establish a United Nations-style Youth Summit at Dudley College:

- Students will represent different countries, deliver speeches, debate global challenges, negotiate solutions and vote on resolutions.
- Topics will include education, climate change, equality and human rights.
- You will build confidence, public speaking, critical thinking, diplomacy and teamwork.
- We will share students' resolutions with relevant decision-makers, turning discussion into real influence.
- We will launch with a solid pilot and grow the summit year on year.

2. Student Ideas into Action – From Proposal to Progress

Your ideas will not just be heard, they will be brought to life:

- I will put in place a clear pathway for you to propose projects, campaigns and activities that improve college life.
- I will work alongside you to assess what is achievable, identify resources and partners, and plan practical next steps.
- Every idea will be considered, we will be honest about what works, and move forward together on what does.
- You will have real ownership, because this is your college experience.

3. Beyond Dudley –
Connecting Student Leaders Across the UK and Beyond

I will establish a Student Leadership Exchange Programme:

- We will connect Dudley's SU officers, ambassadors and society leaders with colleges across the UK.
- We will share successful campaigns, exchange ideas and learn new approaches through online workshops and collaboration.
- We will build towards in-person visits where possible.
- As we grow, we will expand these connections internationally, opening doors for us to see the world, and for the world to see us.
- These connections will keep growing, year after year.

MY COMMITMENT

I am building for the long term:

- Opportunities that outlast my time in office
- Connections that keep strengthening
- A legacy future student leaders can build on
- Progress through collaboration, honesty and steady growth

Your voice. Our college. A future we build together.
